

Pt100 Class A

Order nr.: 809650 1011

Pt100 measuring elements are the most widely used measuring elements in industrial temperature measurement technology. The reasons for this include their long-term stability, the large measuring range and their high measuring accuracy. According to IEC 751 / EN 806751, this Pt100 has accuracy class A and a measuring range of -200 °C to +300 °C.

**Technical data**

Sensor Type	Pt100
Accuracy	Class A according to IEC 751 / EN 60751 $dT = \pm(0,15 \text{ °C} + 0,002 t)$
Measuring range	-200 °C to +300 °C
