

TC connector type J

Artikelnr.: 809150 1000

TC connector type J with glass fiber filled plastic housing. Perm. range °C to max. 220°C.
Suitable for thermocouple Type J, Fe-CuNi (black according to DIN EN 60584) .

Technische Daten	
Suitable for	Type J, Fe-CuNi (black according to DIN EN 60584)
Dimension (L/W/H)	35 / 25 /13
Perm. range °C	max. 220°C
Housing	Glass fiber filled plastic
Conductor diameter	Clamps up to 1.6 mm Ø, max. cable diameter 8 mm
Electrical connection	from solid material, original thermocouple materials
Reverse polarity protection	due to different contact pin diameters
Scope of delivery	TC connector type J, packed in PE bag
